XL Travel Raffle tickets for English Premier League Prize Draw. **Prize valued at over \$4,000.**

The XL Travel prize draw is a great way for your club to raise money for an XL Travel soccer tour. Individual players can raise the entire cost of their trip by selling these tickets.

Here is how it works:

- 1) Your club commits to an XL Travel Soccer Tour
- 2) Once a player has sent in their \$300 deposit they are mailed 15 raffle tickets to sell at \$20 per ticket (total value = \$300)
- 3) Once they send their second trip payment of \$500 in they are mailed more raffle tickets upon request, up to a maximum value of the price of the trip.
- 4) The draw is made annually in October following the team's trip.

Here are some common questions and answers:

Q: Does our team pay for the tickets to be produced?

A: No. XL Travel pays for the tickets; you simply sell them for your own personal trip fund

Q: Do I collect the money and then send that on to XL Travel?

A: No. All you have to do is deposit any money collected into your own account then mail a check or money order to XL Travel or pay electronically online at your registration page. Mail the ticket stubs to **13662 Crystal River Drive, Orlando, FL 32828.**

Q: What is included in the prize?

A: A premiership long weekend for 2 people including their flights, accommodation, game tickets and transportation. You can go to www.xltravel.com for further details and offers on current Soccer Fanatic Weekend packages.

Q: When is the trip?

A: We will give winners a choice of 3-5 dates

Q: What do I do if I don't sell the tickets?

A: Simply send them back to our headquarters

Q: How many tickets are involved in the prize draw?

A: It depends entirely on how many tickets each club traveling with XL Travel sells, but there are a maximum of 10,000 tickets printed for the annual draw. This means the longest odds of winning would be 10,000 to 1, but obviously this is assuming all 10,000 tickets are sold which has never previously happened. Therefore the odds are generally much better than this.
